## ABOUT ME

Hey, my name is Anu Kumari, and I'm a student studying computer science. I enjoy discovering how computers operate, how they relate to people, and what makes them tick. I'm eager to learn more about this subject and carry on using technology to make a difference in the world.I've always been quite interested in learning new things, whether it be through reading about history or watching a movie. My main hobbies include programming, working out, and reading about mediaeval history. I can't stop now that I've had a taste of programming and creating applications. It's helpful, and as my job develops, I wish to learn more about the area.

## EXPERIENCE

- **Full Stack Developer Intern at Danalitics Pvt. Ltd.**
  Team size - 5
  My Role- Wrote frontend and backend code with my team building a clone of calendly app "MeetBo" on MERN Stack - Javascript, HTML .

- **Intern at mazars**
  Team size - 3
  My Role- Created and coded backend code with one of my team members. We built a mobile application which was an insight app for "mazars" using flutter. Also been a part of technical consulting team.

## ACADEMIC PROJECTS

- **Angular and Spring based "Blood Bank Management System" using MongoDB**

  It is a blood bank management system created on both angular and spring framework separatly. Built with a moral purpose of efficiently finding the desired blood type by the patient in lesser time.
  I developed the frontend for this application.

- **"MeetBo" on MERN Stack**

  Meetbo is a virtual availability and booking app used to schedule meetings, appointments, and events for individuals and organizations.
  I was in-charge of the frontend for the application along with i worked on the backend for few functionalities.

- **Flutter and Firebase based Kitchen Utility App: "KitchenEase"**

  KitchenEase, aims to deliver a mobile app to customers with features to ease Inventory management of their kitchens while also providing them functionalities of shopping cart and recipe list.
  I developed the UI of the app.

## EDUCATION

- Computer Science Engineering | The NorthCap University
- XII (CBSE) | Army Public School          Percentage : 85%

## SKILLS

- Java
- DART and FLUTTER
- HTML, CSS and BOOTSTRAP
- DEVOPS
- Bootstrap
- MS-Excel
- MongoDB
- NoSQL and MONGODB

## ACHIEVMENTS

- National Level Shooter | 2016
- Attendant of  Thal Sainik Camp | National NCC Camp | 2016
- National Level Badminton Competition | 2016
